NUESTRA
EMPRESA

OUR
COMPANY

NOSSA
EMPRESA

ES

Fundada en 1969, Corven es la mayor compañía independiente del continente americano dedicada a la fabricación de amortiguadores para sistemas de suspensión de todo tipo de vehículos automotores.

En la actualidad, Corven ha diversificado su cartera de productos ofreciendo una gama muy completa de autopartes que hacen a los sistemas de freno, embrague, transmisión, suspensión y dirección las cuales se suman a las tradicionales líneas que dieron origen a nuestra compañía.

Nuestro producto está concebido para superar el rendimiento brindado por el equipamiento original, destacándose por su diseño que logra una excelente respuesta en seguridad, confort y durabilidad.

US

Founded in 1969, Corven is the largest stand-alone company in the Americas dedicated to manufacturing shock absorbers for suspension systems in all types of motor vehicles.

At present, Corven has diversified its product portfolio by offering a complete range of motor parts for braking, clutch, transmission, suspension and steering systems which add to the traditional lines that helped build up our Company.

Our product is conceived to surpass the original equipment performance, featured by means of a design that achieves an excellent response in safety, comfort and durability.

PR

Fundada em 1969 a Corven é a maior companhia independente do continente americano dedicada à fabricação de amortecedores para sistema de suspensão de todo tipo de veículo Automotor.

Atualmente, a Corven possui uma carteira diversificada de produtos e oferece uma gama muito completa de autopeças para sistemas de freio, embreagem, transmissão, suspensão e direção, além das linhas tradicionais que deram origem à nossa empresa.

Nosso produto é projetado para superar o rendimento oferecido pelo equipamento original, destacandose por seu desenvolvimento e excelente resposta em segurança, durabilidade e conforto.

EXPORTACIÓN

FOR EXPORT

EXPORTAÇÃO

ES

Corven exporta su amplia gama de autopartes a más de 35 países en los 5 continentes.

Corven ofrece productos que respetan las más exigentes normas de calidad a nivel internacional, así como las especificaciones técnicas requeridas por las terminales automotrices más importantes del mundo.

Nuestros usuarios reconocen a Corven como el líder en autopartes en América Latina.

US

Corven exports its wide range of motor parts to more than 35 countries in the 5 continents.

Corven offers products that meet the highest international quality standards, as well as the technical specifications required by the most important motor vehicle manufacturers worldwide.

Our users recognize Corven as a motor part leader in Latin America.

PR

A Corven exporta sua vasta gama de autopeças para mais de 35 países dos 5 continentes.

ES

Para Corven, ser líderes en ventas en el mercado de reposición, implica acrecentar día a día nuestro compromiso con la calidad. Por esa razón, los procesos de comercialización y de servicio posventa de Corven Autopartes, así como los procesos de fabricación de Corven S.A.C.I.F. en Argentina se encuentran certificados bajo normas internacionales.

En Corven, trabajamos desde hace 50 años garantizando a nuestros usuarios un óptimo rendimiento de todos nuestros productos.

Además, nuestros productos, en caso de requerirlo, cuentan con certificación CHAS para la homologación de autopartes en el mercado argentino, a fin de proteger la seguridad de los consumidores.

Corven cuenta un equipo calificado entrenado en recibir, orientar y resolver cualquier tipo de preguntas relacionadas con nuestros productos.

Simplemente llamando a nuestra línea recibirá un apoyo personalizado inmediato.

US

Being sales leaders in the aftermarket segment implies to increase each day Corven's commitment with quality. That is why Corven's marketing and after-sales services processes for spare parts, as well as, manufacturing processes of Corven S.A.C.I.F. in Argentina are certified under international standards.

At Corven, we have been working for 50 years guaranteeing our users an optimum performance of all our products.

In addition, our products, if required, have CHAS auto parts certification approval in the Argentine market, in order to protect consumers' safety .

Corven has a qualified team trained in receiving, orienting and solving any kind of questions related to our products.

Just by calling our call center you will receive immediate personalized support.

PR

Para a Corven, ser líder em vendas no mercado de reposição, significa aumentar a cada dia nosso compromisso com a qualidade. É por isso que os processos de comercialização e serviço de pós-venda das autopeças Corven assim como também a planta industrial da Corven S.A.C.I.F. na Argentina, estão certificados de acordo com as normas internacionais.

Na Corven trabalhamos a mais de 50 anos garantindo aos nossos clientes um ótimo desempenho de todos nossos produtos.

Além disso, nossos produtos, se necessário, ter a aprovação de certificação CHAS para autopeças no mercado argentino, a fim de proteger a segurança dos consumidores.

A Corven conta com um departamento treinado para atender, orientar e solucionar dúvidas e problemas relativos ao nosso produto.

Discando nossa linha direta, o consumidor irá receber um atendimento rápido e personalizado.

Instrucciones de montaje

Assembly instructions

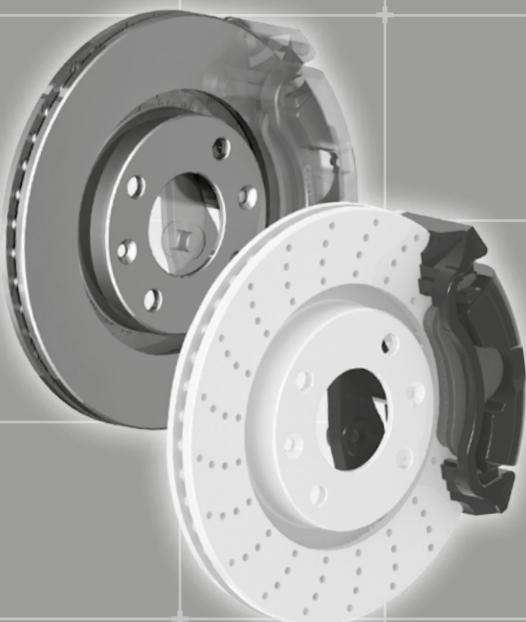

Instruções de montagem

1

- ▶ Libere el caliper de freno (evite dejarlo suspendido por el flexible) retornando los pistones, abrir el purgador para expulsar el exceso de líquido concentrado en el mismo para no comprometer el funcionamiento del modulador hidráulico del ABS o del cilindro maestro. Remueva el disco de freno viejo.
- ▶ Release the brake caliper (avoid leaving it hanging from its flexible tube forcing the pistons back. Open the bleeder to expel the excess fluid so that the ABS hydraulic modulator or master cylinder functioning is not impaired. Remove the old brake disc.
- ▶ Remova o caliper de freio (evite deixá-lo suspenso pelo flexível) retornando os pistões, abrir o sangrador para expulsar o excesso de líquido concentrado no caliper para não comprometer o funcionamento do modulador hidráulico do ABS ou do cilindro mestre. Remover o disco de freio velho.

3

- ▶ Montar el disco nuevo fijándolo con los tornillos o tuercas de rueda. Utilice el reloj comparador a 10 mm del diámetro externo de la pista de frenado del disco para observar la oscilación en el montaje del conjunto. Oscilación máxima permitida 0,10mm.
- ▶ Assemble the new disc and fasten it with the wheel screws and nuts. Place the dial gauge 0.39 in (10 mm) from the outer brake disc track diameter to check the assembly oscillation. The maximum oscillation allowed is 0.004 in (0.10 mm).
- ▶ Montar o disco novo fixando com os parafusos ou porcas de roda. Utilize o relógio comparador a 10 mm do diâmetro superior da pista de frenagem do disco para observar a oscilação na montagem do conjunto. Oscilação máxima permitida: 0,10mm.

2

- ▶ Se recomienda lijar y limpiar la superficie de la maza de rueda donde será montado el disco de freno. Haga una inspección de la superficie de la maza de rueda para verificar alguna deformación de la misma utilizando un reloj comparador. Oscilación máxima permitida 0,05 mm. Los discos y campanas de freno Corven Plus son de aplicación directa, gracias a su tecnología dry-oil, ahorrando el tiempo de limpieza. Los Discos y Campanas de freno Corven Hi-Tech también son de aplicación directa y libres de aceite, gracias a su acabado de terminación anticorrosiva.
- ▶ You should smooth out and clean the wheel hub surface where the brake disc will be assembled. Check the wheel hub surface for any deformity using a dial gauge. The maximum oscillation allowed is (0.002 in) 0.05 mm. Corven's Plus brake discs and drums can be directly installed thanks to their dry-oil technology that saves cleaning time. Corven Hi Tech brake discs and drums are oil-free and can be directly installed thanks to its anti-corrosive topcoat.

- ▶ É recomendado lixar e limpar a superfície do cubo de roda onde será montado o disco de freio. Faça uma inspeção na superfície do cubo de roda para verificar qualquer deformação utilizando um relógio comparador. Oscilação máxima permitida: 0,05 mm. Os discos e tambores de freio Corven Plus são de aplicação direta, graças a sua tecnologia dry-oil, e isso poupa o tempo de limpeza. Os discos e tambores de freio Corven Hi-Tech também são de aplicação direta e livre de óleo, graças ao seu acabamento anti-corrosivo.

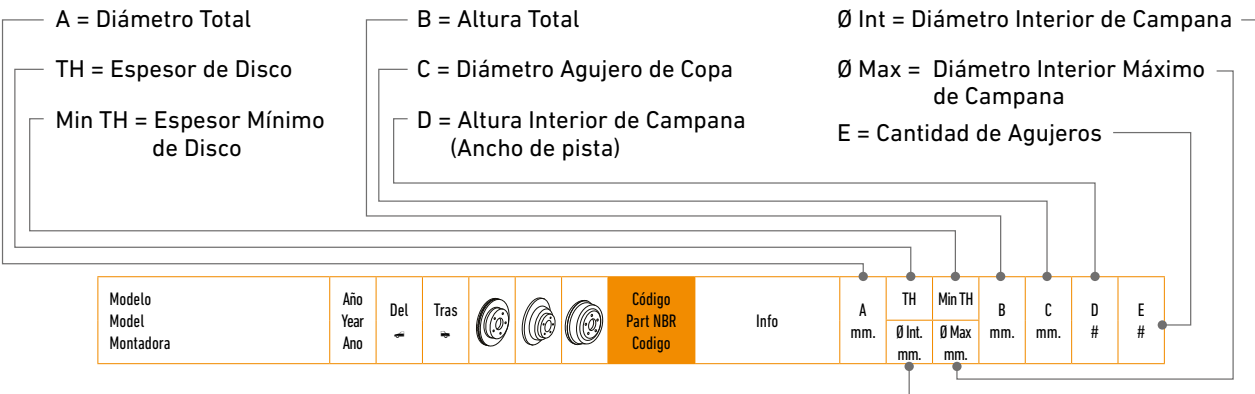

4

- ▶ No se recomienda realizar el ajuste final de los tornillos o tuercas de rueda con herramientas neumáticas, utilice un torquímetro aplicando una fuerza entre 8 a 10 kg. para autos y 10 a 13 kg para camionetas o utilitarios.
- ▶ You should not make the final screw and nut adjustment using air tools. Use a torque meter at 17.6 to 22 lbs (8 to 10 kg) for automobiles and 22 lbs to 28.6 lbs (10 to 13 kg) for pick ups or SUVs.
- ▶ Não é recomendado apertar os parafusos ou porcas de roda com ferramenta pneumática. Utilize um torquímetro aplicando uma força de 8 a 10 kg para automóveis e de 10 a 13 kg para camionetes ou utilitários.

5

- ▶ Luego de armar el sistema de frenos y antes de mover el vehículo, accione varias veces el pedal de frenos para asentar las pastillas sobre las pistas de frenado del disco.
- ▶ Once you have assembled the brake system and before you drive the car, press the brake pedal several times to seat the pads on the disc braking tracks.
- ▶ Após montar o sistema de freios e antes de movimentar o veículo, acionar algumas vezes o pedal de freios para assentar as pastilhas sobre as pistas de frenagem do disco.
